SEWING WASTE.

If you do not know
which waste goes where
check at our waste type browser
www.mojiodpadki.si.

The website is a one-stop-shop for
managing your waste: find e-applications
and forms, waste collection schedules
for your area, set up a free SMS
reminders, check the number of
disposals in the underground
collection unit, etc.

Please
take the waste that
cannot be disposed of in your
bins to a waste collection centre. There
are two in Ljubljana: Barje and Povšetova.
Both accept bulky and hazardous waste, and
waste electrical and electronic equipment. You can
also order free collection of bulky waste at
www.mojiodpadki.si, while hazardous waste and waste
electrical and electronic equipment can also be taken to
a mobile waste collection unit. Check the schedule to
find when it is in your area at www.mojiodpadki.si.

*Three pieces
of good advice:
When shopping, select
foods and other items
with the least packaging,
avoid single-use products
and do not buy products
only because they are
discounted.*
